

The Cabinet of Ministers Resolution 225 Dated 9/1/2019

The Cabinet of Ministers Resolution (225) Dated 9/1/2019

The Nuclear and Radiological Regulatory Commission –in its first stage of establishment and as a transitional stage–, while maintaining the IAEA safety standards as the minimum level requirement, is authorized to use the international standards, regulations, guides and procedures as needed for its scope of activities until the NRRC establishes its capacity and issues its own regulations and guides.
